

MAXIWORKS APPOINTS IP IMPORT AS EXCLUSIVE SALES PARTNER TO DISTRIBUTE MAXILOCK IDENTITY SAFE TO EUROPEAN AND BRITISH CUSTOMERS

Melbourne Australia – March 15th 2007 Maxiworks leaders in security and online line identity protections software announced today the appointment of IP Imports as exclusive distributor of Maxilock Identity Safe for the UK and European markets.

Maxiworks' Maxilock Identity Safe delivers unprecedented levels of identity security and protection that integrates best practices in software security design without relying on the consistent software patches or database updates. Maxilock Identity Safe will protect login, financial and other personal data, from ending up in the wrong person's hands

Gerard Mayo, CEO, Maxiworks Pty Ltd said: "We are pleased to announce the appointment of IP Import – a company with people who are experienced in software sales and marketing to the European and UK markets. We see this partnership as another successful step to growing and expanding our product sales and to ensure the surge in demand for Maxilock Identity Safe is met".

Mayo added "Customers can also be confident that by sourcing Maxilock Identity Safe through IP Imports they will benefit from local expert technical support and advice."

Williem Van Oorde, CEO of IP Imports comments: "The addition of a premium product such as Maxilock Identity Safe strengthens our position as a provider of best-of-breed security software solutions in the European and UK region. With the rapid growth of Identity theft and fraud online we are excited at partnering with them in this region."

About Maxiworks

Maxiworks was founded in 2000 to offer an innovative range of software products and services for individuals and organizations to improve better control and protect their computing and online experience.

"We have always felt that true innovation in software development requires new ways of assessing the problems as well as coming up with realistic ideas when exploiting potential approaches to solving a particular problem"

Today as a small business enterprise, hallmarks of Maxiworks' software are its ease of use, simple deployment and solid code base. The company has a clear focus on IT security and is consistently developing and working on software that bridges the gap between IT convenience and. security

Maxiworks' software portfolio includes a suite of secure desktop, server, certificate and identity management and protection software applications all with optional biometrics/smartcard authentication.
