For Immediate Release**WEBCERUS NEGOTIATES NEW DISTRIBUTOR AGREEMENT FOR
MAXIWORKS' POPULAR MAXILOCK IDENTITY SAFE ONLINE
IDENTITY PROTECTION SOFTWARE**

Webcerus secures rights to continue marketing and selling Maxilock Identity Safe online identity protection product in North America.

Las Vegas, NV – June 1, 2007: Webcerus, a US Software Distributor of targeted online software solutions announced today they have successfully re-negotiated a strategic agreement with Maxiworks giving Webcerus rights to distribute Maxiworks' popular online identity protection software, Maxilock Identity Safe, in North America. Maxilock Identity Safe is a proactive application that provides online users with identity protection, affording additional layers of protection to anti-virus and anti-Spyware programs. The software is designed to address the growing threat of identity theft posed by Malware.

Maxilock Identity Safe is being marketed to ISPs, banking, finance, securities and online stores as a primary method to safeguard their customers and employees against identity theft. Maxilock Identity Safe sells for \$59.95 USD and comes with free e-mail support.

About Webcerus

Founded in 2004, Webcerus specializes in the distribution of unique software solutions that deliver the highest levels of protection of digital information and communications, designed to ensure that all types of data storage, transmission and sharing, as well as Internet browsing, messaging and exchanges are conducted in a safe and secure environment. Webcerus is the US sales partner and distributor of Maxiworks' applications. Software solutions provided by Webcerus can be deployed in large corporate enterprise client/server environments, by SMEs or individual users.
